RE: U67-P91-01

Gentlemen:

This letter is to serve as Notice of Suspension of Operations of our B&J unpatented claims in Emery County under Plan of Operation U-67-P91-01 as required under 43 CFR 3802.4-7.

Due to current business conditions, it was necessary to shut down our wallboard manufacturing operation as of April 19, 1991. Rock will be purchased on as needed basis to supply the plaster operation as long as quality, delivery, and price are satisfactory. Some rock will probably be hauled from the Georgia-Pacific quarry on a limited basis. Due to the uncertainty of any economic recovery in our industry, timing of any possible reopening cannot be projected. However, the situation will be reviewed in six months and then quarterly thereafter to determine the disposition of the quarry.

In the meantime, all equipment and other facilities have been removed from the site. The site will be kept in a clean and safe condition. Reclamation at this time will be limited to reduction of erosion potential.

Yours truly,

GEORGIA-PACIFIC CORPORATION

Mr. Bob Shajary
